Hello, Victoria: 3:30 today works fine for me.

Note that the facility is now known as Ahlstrom-Munksjo NA Specialty Solutions LLC.

I have attached Permit 86-SJK-072. In the past, I have not been able to locate the Preliminary Determination (statement of basis) for this permit, but I will make another inquiry.

Revision 99-SDD-109-R1 was revised concurrently with the issuance of Renewal 445031180-P10. It is discussed in the Preliminary Determination for Renewal 445031180-P10, which is available on the WDNR website (see Pages 3 and 30). In the table Permits and Permit Applications, click Show Inactive Permits to find Renewal 445031180-P10. Note that this revision did not address sulfur dioxide emissions.

Renewal 445031180-P20 did not change the facility-wide sulfur dioxide emission limit, but merely clarified the language of the limit and the recordkeeping requirements. The changes are discussed in the Preliminary Determination for Renewal 445031180-P20, available on the DNR website (see Pages 76 and 77).

The facility's compliance certifications are not on DNR's permit website. To get this certification, please call Michelle Farley – I've copied Michelle on this e-mail.

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

**Subject:** Expera Thilmany Mill  
**When:** Tuesday, April 02, 2019 3:30 PM-4:00 PM (UTC-06:00) Central Time (US & Canada).  
**Where:** R5Metcalf-Metcalf-R1812/R5-Metcalf---18th-Floor

Hi Carol,

Let me know if another time would be better! We are hoping to get information from you about the Thilmany Mill's (Kaukauna, WI) alternate SO2 limits at their boilers. Can you provide any permit applications or documents in which the facility gave justification for these limits? The modification table in the active permit suggests the permits in the table below might have these justifications in the applications. Can you also provide the Form 4530-100 certification for the active operating permit (P21)? We weren't able to find the page where they sign and certify the facility compliance status on WDNR's permit website.

Permit	Date	Permit Type	Boiler Limit
86-SJK-072	07/28/1987	EOP	B07, B08, B10
99-SDD-109-R1	09/13/1999?	Construction?	B09, B11
445031180-P20	7/19/2016	FOP	Facility wide limit

Thank you for your help!
